

Advarra eReg: Electronic Regulatory File launch

The WVCTSI Clinical Trial Center of Excellence (COE) is launching the full version of Advarra eReg on May 10, 2021.

This system is a validated electronic regulatory file platform that provides:

- Electronic signature functionality
- Regulatory file templates and harmonized credentialing management
- Controlled, remote access, including for external monitors
- Integration with Advarra CIRBI for direct transfer of IRB documents
- Integration with Advarra OnCore to streamline clinical research workflows
- Multi-site functionality
- Participant binder and SOP repository options

For the current users of eReg lite, all protocols will seamlessly transition to eReg with the main workflow change being an upgrade to the University SAML login.

Please refer to the Advarra information sheet [here](#) for additional information.

If you wish to obtain access to the system, the eReg access request form found [here](#) should be completed and sent to eRegAdmin@hsc.wvu.edu to initiate role-based training.

If you have questions, please do not hesitate to contact Shelley Welch or Tanya Moran, Co-Directors, Clinical Trials Center of Excellence.
